

MACHINE XF510Cp

MicroPercussion
Pneumatic

Description

The XF510Cp is a new micro-percussion machine which provides exceptional marking quality and unparalleled speed in an extremely compact configuration.

Text marked in :

Benefits of the XF510Cp

■ High speed

Twice the speed of the current range with excellent marking quality:
Marks 10 characters of 3mm (0.12") high in 1.5 seconds.

■ Very compact and light weight

Reduced size allows easy integration into very tight spaces on production lines or rotary tables.
Light weight makes mounting on a robot arm possible.

■ Optimized marking area

Compact overall dimensions with optimized marking area of 50 x 20mm (1.97x0.79").

■ New electronic generation

Intuitive and user-friendly marking software.
Integrated screen with graphical preview.
Functions in autonomous mode or with PC link (T500W software).

Ideal for high volume applications

Automotive

Electronics / pneumatics

Locks & keys
